

Timed Write Peer Score

Step 1: Students are instructed to write only their Student ID number at the top right-hand corner of their paper (no other identifying information is to be provided). Students complete timed writing.

Step 2: Upon collection of papers, teacher will color code each classes papers, highlighting the student's ID numbers. It is best to keep the same color code throughout the school year to avoid confusion.

Example:

First Period - Blue

Second Period - Yellow

Third Period - Pink

Step 3 : The class day following the timed writing, students are supplied with a copy of the appropriate rubric, essays from a class period other than their own, and multiple copies of the Peer Scoring Document.

Step 4: Students score the number of essays required by teacher (I usually require that each student read/score at least three essays). As students complete the Peer Scoring Document for an essay, they are to staple it to the back of the essay and pass it along to the next scorer.

Step 5: After each class has completed peer scoring, the essays will be returned to the students who wrote them during the following class meeting. Students keep their essays (with score sheets attached in their notebooks).

Step 6: Once three of a particular type of essay (rhetorical analysis, argumentative, or synthesis) have been completed, the students will turn in whichever essay they consider to be their best to be graded by the teacher, and entered as a major grade. The essay the student decides to submit must have the score sheets attached, and may not have any additions made other than their name written at the top.
